### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Theodore Leitereg on 21 April 2004.

The application has been amended as follows:

Cancel Claims 38-47.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The claims are drawn to methods of synthesizing an array of biopolymers on a support using small volume chambers. In the first embodiment the claims require the support in a reaction chamber, the chamber being formed between two elements positioned in a sealed, movable relationship wherein the support is moved during the step of polymer synthesis. The prior art does not teach or suggest moving a support within a reaction chamber during a step

of biopolymer synthesis. The second embodiment is further drawn to introducing a gas into the reaction chamber forming an aerodynamic seal wherein top and bottom elements of the reaction chamber are movable during the aerodynamic seal. The prior art does not teach an reaction chamber having the movable elements with an aerodynamic seal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **Conclusion**

Claims 48-68 are allowed.
